

MATTHEW K. DUNN

## **BRYAN SELKIN**

**Dermatology**

Dr. Bryan Selkin believes that one of the cornerstones of treatment is preventing the problem in the first place. At the Center for Dermatology and Cosmetic Laser surgery, patients of all ages are treated for a wide variety of skin concerns, from acne and warts to the most severe skin diseases and genetic disorders.

There are dedicated areas for medical dermatology (skin checks, rashes, acne), surgical procedures (removal of moles and skin cancers), and cosmetic procedures (chemical peels, Botox, fillers, leg veins). Dr. Selkin uses the newest, safest, and least invasive lasers and light sources for conditions such as pre-skin cancer, sun damage, wrinkles, sagging skin, red and blue veins on the face or body, and acne scars. "The goal is to get our patients back to work as quickly as possible in the most painless way with the best results," Dr. Selkin says.

The Center for Dermatology and Cosmetic Laser Surgery is a leading provider of phototherapy (light treatment of skin disease) in the Dallas-Fort Worth area. Common skin conditions such as psoriasis, vitiligo, and eczema can frequently be controlled without the need for oral medications which can produce side effects on internal organs.

Dr. Selkin attends many national meetings and keeps up with the latest advances in his field. He graduated from and was educational chief of the Harvard residency program in dermatology in Boston, did additional fellowship training at Harvard in the newest clinical trials in dermatology, and won the outstanding teaching award immediately. He is board certified in dermatology and a member of the American Academy of Dermatology. He enjoys going that extra step and taking on challenging cases.

Dr. Selkin and four other full-time providers see patients in Plano and McKinney, with convenient parking and Saturday hours. By the fall of 2011, the Plano location will have more than 10,000 square feet. Visit the Center for Dermatology and Cosmetic Laser surgery and see why Dr. Selkin has been named one of the best dermatologists in Collin County.
