# Center for Dermatology & Cosmetic Laser Surgery

**DRS. BRYAN A. SELKIN & GILBERT T. SELKIN WELCOME DR. NARINEH ZOHRABIAN**

When a successful medical practice understands their impact on the community, it's no surprise to see them expand their care. Now with four North Texas locations, the thriving Center for Dermatology and Cosmetic Laser Surgery has also grown to include Dr. Narineh Zohrabian.

Bryan A. Selkin, M.D., board-certified dermatologist, started the practice in Plano. A former chief resident of education at the world-renowned Harvard University Dermatology Residency Program, he did an extra year of fellowship training in clinical trials, giving him expertise in the newest and latest treatments in the field.

His brother, Gilbert Selkin, M.D., D.M.D., a maxillofacial surgeon with extensive training in facial anatomy and reconstructions, joined the practice last year. He specializes in reconstruction of the head, face, neck and oral cavity as well as facial cosmetic surgery and completed an internship in general surgery and residency in oral and maxillofacial surgery at the prestigious Baylor University Medical Center. In August, Dr. Narineh Zohrabian brought her compassionate, personable care to the center.

"There's a great sense of community in this practice," said Dr. Zohrabian (affectionately called Dr. Z by her patients). "Dermatology is a wonderful field of medicine to practice. I can see exactly what I'm treating and get to serve the whole spectrum of the population. I'll see a two-year-old and an 80-year-old in the same day. I'm fortunate to get to do what I love as a career."

## THEY CAN HELP, IF YOU HAVE:

acne

moles or a history of skin cancer

warts

eczema

psoriasis

unsightly scars

unwanted red spots,

brown spots or

sun damage

unsightly leg veins

warts, acne or acne scarring

unwanted hair

wrinkles

*And the dedicated staff works on the patient's behalf for insurance approval for all medically necessary procedures.*

### Need a gift for that hard-to-buy for loved one?

Why not select gift certificates for cosmetic procedures from the Center for Dermatology and Cosmetic Laser Surgery? Select from a package of several procedures that can be completed over time or choose a set dollar amount that he or she can use as desired. A free phone consultation can help you decide. Facials, facial peels, microdermabrasion, laser treatments, Botox, fillers and more can all make your loved one feel better about how he or she looks and feels this new year. Call today! 972-985-9003.

### A COMPASSIONATE, CARING TEAM OF PROFESSIONALS

Although the medical professionals at Center for Dermatology and Cosmetic Laser Surgery use the latest technology to care for their patients, they believe patient education is key to good health. "We have increasingly focused the practice on prevention of skin disease whenever possible, so patients are less likely to develop a problem in the first place," said Dr. Bryan Selkin.

In addition to treating general dermatological conditions non-invasively or with lasers or surgery, if necessary, they are a leading center for treating skin diseases with safe forms of light. "We focus on effective treatments that give the least down time," said Dr. Bryan Selkin. "Many of our patients are back at work within 24 hours."

### TREATING ALL TYPES OF DERMATOLOGICAL CONDITIONS—INCLUDING COSMETIC

Want to greet the holidays and New Year with your best face forward? All four locations of the practice also offer cosmetic treatments including Botox, skin peels and lasers. The group also administers the newest and safest facial fillers such as Juvederm and Restylane plus Botox for facial wrinkles and to control sweating on various parts of the body. With over eight dedicated lasers and the newest technology, a wide array of common skin problems, such as discoloration, veins, sun damage and loose skin can be treated. "I enjoy the cosmetic side of dermatology because I get to use my artistic side," Dr. Zohrabian said.

And now the Center for Dermatology and Cosmetic Laser Surgery offers you the convenience of pre-purchasing cosmetic procedures as a gift for a loved one. Choose from a specific procedure—such as Botox or a cosmetic peel—or select a gift for a set monetary amount. Not sure what fits best? Just call the office and an informed professional will offer his or her counsel so you select the perfect gift.

As the Center for Dermatology and Cosmetic Laser Surgery continues to grow, their dedication and commitment to your good health remains forefront. As always, they are accepting new patients and look forward to treating your family as they would their own.
